

Cookies

In terms of the HTTP protocol, a cookie is a small block of data which a web server sends to a browser, which then stores it on the user's computer. The browser then sends this data back to the server on each subsequent visit to the same server. Cookies are commonly used to distinguish individual users (but cannot identify a specific user), and to store user preferences, etc.

Although most browsers support cookies, other simpler browsers (e.g. on mobile devices) may not. Moreover, cookies can be disabled in most browsers. You therefore have the option of choosing your own cookie preferences. (Source: https://cs.wikipedia.org/wiki/HTTP_cookie)

Which cookies we use

The cookies we use on our website are short-term cookies (stored only temporarily while your browser is open) and long-term cookies (stored on your computer until you manually delete them or the cookie process deletes them).

How to reject use of cookies

You can also set your web browser to reject cookies or to use only certain files. Links to browser settings can be found below.

Strictly necessary cookies

Some cookies are required to ensure basic functionality. Without these cookies, the website will not function properly. They are enabled by default and cannot be disabled.

Name	Domain	Seller	Expiry period
PHPSESSID	cernykun.com		Session
cookiehub	.cernykun.com	CookieHub	365 days

Performance cookies

Performance cookies help us improve our website by collecting information and reporting on its use.

Name	Domain	Seller	Expiry period
_gid	.cernykun.com	Google	1 day
gat	.cernykun.com	Google	1 hour
_ga	.previo.cz	Google	400 days
ga	.previo.cz	Google	400 days

Targeting and advertising cookies

Targeting and advertising cookies are used to track visitors across websites, enabling website owners to display relevant and engaging ads.

Name	Domain	Seller	Expiry period
_ga	.cernykun.com	Google	400 days
ga	.cernykun.com	Google	400 days
